### SECTION 1: Identification of the substance/mixture and of the company/undertaking

| 1.1 Product identifier              |      |  |
|-------------------------------------|------|--|
| Trade name                          | :    | Krytox™ GPL 206  |
| SDS-Identcode                       | :    | 13000031500  |
| 1.2 Relevant identified uses of the | he s | substance or mixture and uses advised against  |
| Use of the Sub-<br>stance/Mixture   | :    | Lubricant  |
| Recommended restrictions on use     | :    | For industrial use only.<br>Do not use or resell Chemours <sup>™</sup> materials in medical applica-<br>tions involving implantation in the human body or contact with<br>internal body fluids or tissues unless agreed to by Seller in a<br>written agreement covering such use. For further information,<br>please contact your Chemours representative. |
| 1.3 Details of the supplier of the  | sat  | fety data sheet  |
| Company                             | :    | Micro to Nano<br>Tappersweg 91<br>2015 CH Haarlem<br>The Netherlands   |
| Telephone                           | :    | +31 (0)85 2013155  |
| E-mail address                      | :    | info@microtonano.com   |

### **1.4 Emergency telephone number**

+(31)-858880596 (CHEMTREC - Recommended)

+31(0)887558000 (NVIC) Emergency Number for professional users only

## **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

### 2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

| Version | Revision Date: | SDS Number:      | Date of last issue: 22.10.2022 |
|---------|----------------|------------------|--------------------------------|
| 4.0     | 08.11.2022     | SD00164001015-04 |                                |

Not a hazardous substance or mixture.

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

The thermal decomposition vapours of fluorinated plastics may cause polymer fume fever with flu-like symptoms in humans, especially when smoking contaminated tobacco.

### **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

| Components |                            |
|------------|----------------------------|
| Remarks    | : No hazardous ingredients |

### **SECTION 4: First aid measures**

| 4.1 Description of first aid mea | asure | S   |
|----------------------------------|-------|---|
| Protection of first-aiders       | :     | No special precautions are necessary for first aid responders.  |
| If inhaled                       | :     | If inhaled, remove to fresh air.<br>Get medical attention if symptoms occur.  |
| In case of skin contact          | :     | Wash with water and soap as a precaution.<br>Get medical attention if symptoms occur.                                   |
| In case of eye contact           | :     | Flush eyes with water as a precaution.<br>Get medical attention if irritation develops and persists.                    |
| If swallowed                     | :     | If swallowed, DO NOT induce vomiting.<br>Get medical attention if symptoms occur.<br>Rinse mouth thoroughly with water. |
| 4.2 Most important symptoms      | and e | effects, both acute and delayed   |
| Symptoms                         | :     | Inhalation may provoke the following symptoms:<br>Irritation<br>Lung oedema   |
|                                  |       | Eye contact may provoke the following symptoms<br>Blurred vision<br>Discomfort  |
|                                  |       | Lachrymation  |
|                                  |       | Lachrymation<br>Skin contact may provoke the following symptoms:<br>Irritation<br>Redness                               |

### 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

# SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

| Technical measures      | : | See Engineering measures under EXPOSURE<br>CONTROLS/PERSONAL PROTECTION section.  |
|-------------------------|---|---|
| Local/Total ventilation | : | Use only with adequate ventilation.   |
| Advice on safe handling | : | Do not breathe decomposition products.  |
|                         |   | Handle in accordance with good industrial hygiene and safety<br>practice, based on the results of the workplace exposure as-<br>sessment<br>Take care to prevent spills, waste and minimize release to the<br>environment.    |
| Hygiene measures        | : | If exposure to chemical is likely during typical use, provide eye<br>flushing systems and safety showers close to the working<br>place. When using do not eat, drink or smoke. Wash contami-<br>nated clothing before re-use. |

## 7.2 Conditions for safe storage, including any incompatibilities

| Requirements for storage areas and containers | : | Keep in properly labelled containers. Store in accordance with the particular national regulations. |
|---|---|---|
| Advice on common storage                      | : | No special restrictions on storage with other products.   |
| Further information on stor-<br>age stability | : | No decomposition if stored and applied as directed.   |

### **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

| Information on likely routes of | : | Skin contact |
|---------------------------------|---|--------------|
| exposure                        |   | Ingestion    |
|                                 |   | Eye contact  |

#### Acute toxicity

Not classified based on available information.

#### Skin corrosion/irritation

Not classified based on available information.

### Serious eye damage/eye irritation

Not classified based on available information.

#### Respiratory or skin sensitisation

#### Skin sensitisation

Not classified based on available information.

#### Respiratory sensitisation

Not classified based on available information.

#### Germ cell mutagenicity

Not classified based on available information.

#### Carcinogenicity

Not classified based on available information.

### Reproductive toxicity

Not classified based on available information.

## STOT - single exposure

Not classified based on available information.

### STOT - repeated exposure

Not classified based on available information.

#### Aspiration toxicity

Not classified based on available information.

### **SECTION 12: Ecological information**

### 12.1 Toxicity

No data available

#### Further information

Sources of key data used to compile the Safety Data Sheet : Internal technical data, data from raw material SDSs, OECD eChem Portal search results and European Chemicals Agency, http://echa.europa.eu/

Items where changes have been made to the previous version are highlighted in the body of this document by two vertical lines.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
